SUMMARY

MERN Stack Developer with strong expertise in React.js, Node.js, Express.js, and MongoDB, specializing in building scalable, full-stack web applications. Hands-on experience with RESTful APIs, JWT authentication, and database optimization to deliver efficient, secure solutions. Proficient in front-end technologies (HTML5, CSS3, JavaScript, Tailwind CSS) and modern development practices, ensuring seamless user experiences. Trained at SMIT Peshawar with practical industry experience at E Digital Pakistan.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (Beginner), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, MongoDB, Mongoose
- **Authentication:** JWT, OAuth
- **Testing & Deployment:** GitHub Pages, Vercel
- **Dev Tools:** Git, GitHub, VS Code, npm, Postman

PROFESSIONAL EXPERIENCE

Frontend & Backend Development — Associate Software Engineer

June 2024 – July 2025

E Digital Pakistan, Chamkani, Peshawar (Onsite)

- Contributed to front-end development using JavaScript frameworks such as React.js to build responsive user interfaces
- Translated UI/UX mock-ups into functional, reusable components
- Integrated REST APIs to support dynamic features
- Supported deployment and monitoring of applications on cloud platforms (e.g., AWS)
- Used Git for version control and maintained code repositories across the team
- Participated in code reviews, testing, and debugging to ensure high-quality software delivery
- Collaborated in an Agile team to deliver production-ready features

EDUCATION

Bachelor of Computer Science

Oct 2021 – Jun 2025

University of Agriculture Peshawar, Peshawar, Pakistan

- CGPA: 3.71 / 4.0

Web Development — MERN Stack

Mar 2024 – Feb 2025

SMIT Peshawar, Peshawar, Pakistan

- Gained strong proficiency in MongoDB for database management, including schema design, indexing, and query optimization
- Mastered Express.js for building scalable backend APIs
- Developed dynamic, responsive interfaces in React.js using component-based architecture and state management
- Acquired hands-on experience with Git version control, deployment strategies, and debugging
- Enhanced understanding of the Node.js runtime environment for server-side programs
- Implemented authentication and authorization using JWT and OAuth

PROJECTS

E-Tutor — Online Tutoring Platform — React, Node.js, Express.js, MongoDB, Tailwind CSS | Feb 2025 – Mar 2025

- Built a complete online tutoring platform with secure authentication, role-based authorization, and separate dashboards for students and tutors
- Added a tutor application system with an admin approval workflow
- Integrated a real-time chat system for tutor-student communication with rule-based message handling

Portfolio Website — *React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS* | Aug 2024

- Developed a responsive portfolio website using React.js to showcase projects, skills, and contact details
- Built reusable React components with interactive navigation and smooth scrolling
- Used Tailwind CSS for responsive, mobile-first styling across all devices

Code: github.com/CodeWithAdeel1/My-Portfolio.git | **Live:** my-portfolio-chi-ten-30.vercel.app/

E-Digital Pakistan — Freelance Talent Marketplace Platform — *Next.js, React.js, Tailwind CSS*

- Developed a responsive freelance talent marketplace platform connecting businesses with vetted developers, designers, and consultants
- Built multi-page dynamic routing (Jobs, Talent, Services, Blog, About) using Next.js for fast, SEO-friendly navigation
- Designed reusable, responsive UI components with optimized image loading for a polished, enterprise-grade user experience

Live: e-digital-pakistan.vercel.app/

DG-Hub — Company & Workforce Management Platform — *React.js*

- Built a React.js platform for managing company profiles, job postings, and employee records
- Centralized job listings and employee data into one dashboard to streamline recruitment workflows
- Designed an intuitive, responsive interface for easy navigation across companies, jobs, and employees
