SUMMARY

MERN Stack Developer with strong expertise in React.js, Node.js, Express.js, and MongoDB, specializing in building scalable, full-stack web applications. With hands-on experience in RESTful APIs, JWT authentication, and database optimization, I develop efficient and secure solutions. Proficient in front-end technologies (HTML5, CSS3, JavaScript, Tailwind CSS) and modern development practices, I ensure seamless user experiences. Trained at SMIT Peshawar with practical industry experience at E Digital Pakistan.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (Beginner), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, MongoDB, Mongoose
- **Authentication:** JWT, OAuth
- **Testing & Deployment:** GitHub Pages, Vercel
- **Dev Tools:** Git, GitHub, VS Code, npm, Postman

PROFESSIONAL EXPERIENCE

E Digital Pakistan Chamkani, Peshawar (Onsite)

Frontend & Backend Development (Associate Software Engineer) June 2024 – July 2025

Responsibilities:

- Contributed to front-end development using JavaScript frameworks such as **React.js** to build responsive user interfaces
- Translated UI/UX mock-ups into functional, reusable components.
- Integrated REST APIs to support dynamic features.
- Supported deployment and monitoring of applications on **cloud platforms (e.g., AWS)**
- Used Git for version control and assisted in maintaining **CI/CD pipelines** for automated builds and deployments
- Participated in **code reviews**, testing, and debugging to ensure high-quality software delivery
- Collaborated in an Agile team to deliver production-ready features.

EDUCATION

University of Agriculture Peshawar Peshawar, Pakistan

Bachelor of Computer Science Oct 2021 – Jun 2025

- CGPA: 3.71 / 4.0

SMIT Peshawar Peshawar, Pakistan

Web Development (MERN Stack) Mar 2024 – Feb 2025

Key learnings:

- Gained strong proficiency in **MongoDB** for database management, including schema design, indexing, and query optimization
- Mastered **Express.js** for building scalable backend APIs
- Developed dynamic, responsive interfaces in **React.js** using component-based architecture and state management
- Acquired hands-on experience with **Git** version control, deployment strategies, and debugging
- Enhanced understanding of the **Node.js** runtime environment for server-side programs
- Implemented authentication and authorization using **JWT** and **OAuth**

PROJECTS

Learning Management System — Durshal (E Digital Pakistan | 2024)

- Developed front-end features using React.js to build responsive and user-friendly interfaces.
- Built RESTful APIs with Node.js & Express.js to handle user roles, course management, and progress tracking.
- Implemented JWT-based authentication APIs for secure access and role-based permissions.
- Ensured smooth frontend–backend integration for a seamless user experience.

E-Tutor — Online Tutoring Platform (MERN Stack | Feb 2025 – Mar 2025)

Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a complete online tutoring platform with secure authentication, role-based authorization, and separate dashboards for students and tutors.
- Added tutor application system with admin approval workflow.
- Integrated a real-time chat system for tutor–student communication with rule-based message handling.

Backend: <https://github.com/CodeWithAdeel1/E-Tutor-BackEnd.git>

E-Commerce Website (Jan 2025)

Technologies: React.js, Firebase Authentication

- Developed an e-commerce store with product listing and cart functionality.
- Integrated Firebase Authentication for secure sign-in and user protection.
- Added client-side form validation and error handling for user inputs.

Code: <https://github.com/CodeWithAdeel1/E-Commerce.git>

Portfolio Website (Aug 2024)

Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

- Developed a responsive portfolio website using React.js to showcase projects, skills, and contact details.
- Built reusable React components with interactive navigation and smooth scrolling.
- Used Tailwind CSS for responsive, mobile-first styling across all devices.

Code: <https://github.com/CodeWithAdeel1/My-Portfolio.git>

Responsive Book Store (Mar 2024)

Technologies: HTML, CSS, JavaScript

- Designed a responsive online bookstore with mobile-friendly layout.
- Optimized images and assets for faster loading and better performance.
- Improved accessibility and navigation for a smooth browsing experience.

Live: <https://codewithadeel1.github.io/task04-html-css-responsive-book-store-website/>

Blog Website (2025)

Technologies: Node.js, Express.js, MongoDB

- Built a Blog Website using Node.js, Express, and MongoDB.
- Implemented secure routing and server-side validation for users.
- Built a clean UI and efficient backend for content management.
